THE ADDED VALUE OF ENGAGING BSMimpact

How BSMimpact adds value...

When our team work with you, we utilise and apply:

- **Core capabilities and skills of individual resources**
- **Existing methodologies & practices of customer organizations**

In addition to these, by engaging BSMimpact you get the benefit of:

- **Methodologies, training, tools & collateral**
  (BSMimpact continually invest in developing these)
- **Quality Assurance**
  (ISO accreditations, management support, mentoring & CPD)
- **Team Knowledge**
  (Proactive support and access to shared knowledge of the team)
- **Operational Support**
  (Admin function taking care of time recording, expenses, invoicing etc.)
- **Pre-sales Support**
  (Getting to know your organization)

All of these things allow each BSMimpact Consultant/Practitioner to focus more of their time on delivering to the customer, which adds significant value not found with other models or options. This ensures a high quality in the engagement with our customers, our administration and support capabilities, and the services we provide.

Judge us by the value we deliver
